

SCHEDULE “A”

1. The Intervenor, International Union of Operating Engineers, Local 793 (“Local 793”), is a trade union within the meaning of subsection 1(1) and section 126 of the *Act*.
2. Local 793 is the Ministerially Designated employee bargaining agent for all employees engaged in the operation of cranes, shovels, bulldozers, or similar equipment, and those primarily engaged in the repairing and maintaining of same, and employees engaged as surveyors in the ICI sector of the construction industry.
3. In accordance with its Ministerial Designation, Local 793 is party to a provincial collective agreement covering all operating engineers in, *inter alia*, the ICI sector of the construction industry.
4. Local 793 was not given notice of this proceeding.
5. The parties to this accreditation application, as we understand it, take the position that the bargaining rights held by the Labourers in respect of its demolition contractors and the scope of the provincial collective agreement between the Labourers Union and the Ontario Demolition Contractors Association covers, *inter alia*, operating engineers in the ICI sector of the construction industry. This is the collective agreement that would become the accredited collective agreement should the Board grant accreditation in this proceeding.
6. Local 793 intervenes and takes the position that the Labourers have not been designated to represent operating engineers in the ICI sector of the construction industry (including for demolition work) and thus the provincial collective agreement cannot lawfully apply to or cover same.
7. Local 793 submits that any accreditation issued by the Board in this or any other proceeding ought to expressly exclude from the resulting accredited collective agreement, operating engineers in the ICI sector of the construction industry.
