

Schedule A
Responding Party's Statement of Particulars

1. The Responding Party, Local 1059, supports this application for accreditation.
2. Local 1059 has bargained with the members of the Applicant for several decades on a group or individual basis for what is now the bargaining unit described in the Application for the employers' unit. At the same time, this is the bargaining unit of Local 1059' standard collective agreement in Board Area 3, known colloquially as the Del-ko Collective Agreement.
3. The bargaining unit in the standard collective agreement that Local 1059 has negotiated with members of the Applicant in Board Area 3, with changes over the years, has been applied in the geographic area sought in the accreditation application for decades as well.
4. Local 1059 negotiates the standard collective agreement with a group of employers, who are members of the Applicant, and every other contractor that is party to and bound by the standard collective agreement agrees to pick up the terms and conditions of the standard collective agreement. This has been the collective bargaining practice for decades.
5. The unit sought is a well-established unit that has led to no significant labour relations problems for a very long time.
6. Assuming the Applicant has the authority to represent the unit, a proposition Local 1059 does not dispute, the application should be granted.
7. As the parties are going into collective bargaining for a renewal collective agreement, which expires December 31, 2025 for the majority of the contractors, and there appear to be no issues in dispute, Local 1059 requests that this application be expedited.

8. The list of employers Local 1059 states are in the proposed bargaining unit and had employees working in the bargaining unit in the year immediately preceding the application is in **Schedule B**.
9. Local 1059 has included a **Schedule C** with the current contact information for all contractors that have been included by the Applicant in its Schedule B and Local 1059 in its Schedule B.
10. Local 1059 has also included a copy of the current collective agreement at **Schedule D**. The Union is able to provide additional documents, as necessary, pertaining to all the employers included in **Schedule C** being party to and bound by the standard collective agreement and/or agreeing to pick up the terms and conditions of the standard collective agreement in Board Area 3.
