NOTICE TO COMMUNITY – JURISDICTIONAL AND SECTOR DISPUTE PROCEDURES – JUNE 24, 2026

The Board has amended its Rules and processes in respect of jurisdictional and sector disputes. Procedures for non-construction jurisdictional disputes are now the same as for construction industry jurisdictional disputes (reflecting the Board's current general practice). The forms in respect of sector disputes have been amended to parallel the processes for a jurisdictional dispute. Information Bulletin 25 has been amended to reflect these changes, as well as the Board's current practice of not setting a consultation date in a jurisdictional dispute until the pre-consultation conference has been held.
