NOTICE TO COMMUNITY – CONSTRUCTION COLLECTIVE AGREEMENT CODES

Rule 34.1(b) provides that where collective agreements are on file with the Board and have been provided an identification code, only the code need be set out in the referral.

A list of the collective agreements currently on file with the Board is available for viewing on the Board's website (click "Construction" at the bottom of the Board's website, then "Collective Agreement Codes" under "Miscellaneous").

Many of the collective agreements for which codes have been provided are out of date, such that the Board does not have a current copy.

The Board asks that all interested trade unions review the list and provide the Board updated, electronic, copies. Hard copies are not required. Any collective agreement in the list that is not updated, and for which an updated version is not received by February 16, 2026 will be removed from the list and its code will no longer be valid. Rule 34.1(b) would then require a copy of the collective agreement to be filed with the grievance referral.

Collective agreements should be directed to the attention of Normand Roy at normand.roy@ontario.ca.

Any questions regarding updating collective agreements and codes may be directed to the Solicitors' Office.
